

Benefex + Businessolver

A Global Benefits Partnership

We are proud to have Benefex as a partner. This relationship, grounded in empathetic experiences and state of the art innovation, combines Businessolver's U.S.-based benefits administration expertise and Benefex' global platform, to offer end-to-end employee benefits solutions and technology to enterprise customers anywhere in the world.

Creating a Global Benefits Strategy

The desire for happier and healthier employees translates to all organizations across the globe, regardless of location or size. And with the right tools and partners, we can create an ecosystem of support that helps employees get enrolled in the right benefits that then lead them to the right care.

Better Together

Bringing together the premier technologies of Benefex and Businessolver, this partnership creates an unparalleled, global proposition. Shared customers will be able to deliver a truly global approach to benefits technology, administration, and communication. Together, Benefex and Businessolver help employees from over 80 countries get access to the right benefits at the right time translating into cost savings, improved health outcomes, and consumer trust and loyalty.

Combined Forces: Our combined platforms, Benefitsolver and OneHub, support an employee's selection of benefits to ownership of their health. Whether they are based in the US, or internationally, they can access all the tools and navigation they need to be improve their total well-being.

Innovative: Innovation is at the heart of our organizations. When two partners come together to change the way employees interact with their health, you can trust that we will always be one step ahead.

Engagement: Both Businessolver and Benefex have a passion for creating technology that puts employees first. Our organizations have developed communication systems that personalize the benefits experience to get them the information they need, when they need it, to ultimately drive maximum engagement of your benefits programs.
